Getting care

Your primary care provider

We call the main doctor you see a primary care provider, or PCP. When you see the same PCP over time, it's easier to develop a relationship with them. Each family member can have their own PCP, or you may all choose to see the same person. Your PCP is available to assist you 24 hours a day, 7 days a week for:

- Routine care, including yearly checkups
- Coordinating your care with a specialist
- Treatment for colds and flu
- Other health concerns

Schedule a wellness exam soon

A yearly wellness exam with your PCP is important for good health. These visits are fully covered. Schedule your visit within the first 30 days of joining your health plan.

Call Member Services if you'd like help setting up your PCP visit.

Change your PCP at any time

It's important to have a PCP you like and trust. You can change your PCP at any time online or simply by calling us. If you like, we can recommend someone for you.

Where to get care

Your primary care provider (PCP)

This is the person you should see for most of your care. This includes checkups, treatments, vaccinations, minor injuries and health concerns.

Urgent care clinics

Network urgent care clinics are a good option if you have an illness or injury that needs quick attention. This could include sprains or strains, minor cuts needing stitches, sore throat, minor burns, rash, fever or infection of any kind.

Emergency care

This level of care is for chest pain, bleeding that won't stop, trouble breathing, severe allergic rashes or the feeling that you might hurt someone or yourself. If you have a health emergency when you are out of town or out of State, we will cover the costs. If you need non-emergency care while traveling outside the service area or when you are not in the State of Michigan, call your PCP or our Member Services department first. If it's an emergency, call 911 or go to the nearest emergency room.

Telehealth/telemedicine services

24/7 access to doctors by phone or video. This is just like seeing your doctor in the office. They can diagnose, treat and prescribe medicine, if needed. Call your provider to see if they offer telehealth services.

UHC Doctor Chat

As a UnitedHealthcare Community Plan member, you can video chat with a real doctor from your phone, tablet or computer with UHC Doctor Chat.

Need to see a doctor but can't leave your house? Have a sick child and don't want to wait for an appointment? Talk to a doctor in seconds with UHC Doctor Chat. Get the answers, treatment and follow-up care you need, when you need it.

UHC Doctor Chat is available at no cost 24 hours a day, 7 days a week. Download the app today.
