

HealthTalk

Your journey to better health

What's inside

It's time for your annual flu shot.
Our flu shot location finder makes it easier to find where to get one.
Learn more on page 2.

Covered care

Dr. Chat

Manage your health on the go

Skip the waiting room and chat with a primary care provider (PCP) on UHC Doctor Chat, at no cost to you.

PCPs are available 24 hours a day, 7 days a week and can answer questions big or small. Get the answers, treatment and follow-up care you need, when you need it.

Download the app today on the App Store® or Google Play™ or learn more at UHCDoctorChat.com.

Fight the flu

It's time for your annual flu shot

It is important to get a flu shot every year. It is recommended for everyone 6 months and older.

Here are 3 reasons why:

1. It protects you from getting sick with the flu.
2. If you do get the flu, your symptoms will be less severe.
3. It also protects your family from getting the flu. When everyone gets the flu shot, it makes it harder for the flu to spread.

Get your flu shot today.

There is no cost to you. We have an online tool that makes it easier to schedule one. Visit myuhc.com/findflushot.

Medicaid Renewal

Take action

What you need to do to renew your Medicaid benefits

Medicaid members need to renew their coverage each year. Your state will tell you when its time. They may call it recertification or redetermination.

Make sure the state can reach you when it is time to renew. Give them your current address, email and phone number. It is important to reply when they contact you. If you don't you could lose your health plan.

We're here to help. Learn more at uhc.com/staycovered.

Everyday life

Ready, set, quit

Help to quit smoking for good

It's no secret that it is hard to quit smoking and you might not know where to begin. Regardless of what stage of life you are in, a teenager, an expectant mom or an adult, quitting smoking is one of the most important actions you can take to improve your health. This is true no matter how long you have been smoking.

With the right support, you can more than double your chances of quitting for good.¹ Here are some ways to get help:

- Support from a counselor can be given by phone, one-on-one or in a group.
- Nicotine replacement helps relieve withdrawal symptoms. Choose from gums, patches, sprays, inhalers or lozenges.
- Medications that work on chemicals in the brain to break your addiction.

To get help quitting visit quitnowkentucky.org or call **1-800-QUIT-NOW**, TTY **711** (toll-free).

Transitions of care

Follow-up care is important

What to do after getting home from the hospital

The time immediately following a hospitalization or emergency room visit can be overwhelming. Take these steps to help ease this transition:

1. Understand your discharge instructions. Your nurse or provider should review these with you before you leave the hospital. Ask questions about anything you don't understand.
2. Fill any new prescriptions. While at the pharmacy, ask the pharmacist to review your entire list of medications for any possible drug interactions.
3. Make a follow up appointment with your Primary Care Provider (PCP) or behavioral health provider within 7 days following your discharge. Bring a copy of your discharge instructions and a list of any new medications prescribed to you.

Ask for support. Many people need extra help during this time. Asking for support from others may be just what you need for a speedy recovery.

If you need help scheduling a follow up appointment, please call the Member Services number toll-free at the number on page 4.

Every year UnitedHealthcare works to add Value-Added Benefits (VAB) to your plan. These programs and services go above and beyond your standard benefits.

A current program, Care Tablets, will no longer be available starting in January 2025. This will allow for new VAB to be added.

If you have questions about this benefit or other VABs, please call Member Services toll-free at **1-866-293-1796, TTY 711.**

We're here to help

Member Services: 1-866-293-1796, TTY 711
