Before you renew your current plan, put it up against an Oxford¹ plan from UnitedHealthcare and see which one comes out on top. With a variety of plans to choose from, an Oxford benefits package can be built around your business, offering:

- **More ways to save**, with a wide choice of plans built to help fit your budget and tools employees can use to compare costs and treatment options
- **A choice of local networks**, with most providing national network access for employees that live or work outside of the Oxford service area
- **A simpler health care experience** for employees, with wellness and rewards programs designed to help them get healthier, 24/7 Virtual Visits and tools like myuhc.com[®] and the UnitedHealthcare[®] app that help them access care and details about their benefits anytime
- **Simpler administration** for you, with real-time access to eligibility and billing, onboarding tools, claims and more
- **Specialty benefits** – consider adding our dental, vision and other specialty benefits to your medical plan to help attract and retain high-value employees
