# Relationships for a simpler, more personal experience

Doctors Plan is built to foster strong connections between your plan participants and their PCP—so they always have a doctor in their corner guiding them to quality care and helping them avoid cost surprises. Plan participants and their families can choose from more than 1,200 network PCPs.

For an experience that's easier, plan participants don't need a referral to see a specialist. And they're able to see all Banner Health Network providers, not just those in their PCP's medical group. This may mean faster and more personalized care for your plan participants and their families.
